Get an insight into the exhibitors' work

These questions can help you understand more about the real work of our careers trail exhibitors.

LMI and employability

- What does your organisation produce or do?
- How many people do you employ in the region?
- What kind of roles do you recruit?
- What does career progression routes are there for these roles?
- Do you offer apprenticeship routes or training programmes in your organisation?
- What sort of skills, experience and qualifications are you looking for from new entrants?
- Where do you advertise your jobs?
- Why should people come and work in this industry and region?
- What do you find most rewarding in your role?

Curriculum links to farming & growing careers

- How important are science, technology, engineering, arts, maths and medicine subjects to your organisation?
- Do you have any ideas for how we could link our curriculum teaching to the skills needed for your roles?
- Which subjects do you see as vital to support your business and which skills are key?
- How does the organisation or sector make practical use of the skills and knowledge developed in my subject?

MORE CAREERS CONTENT!

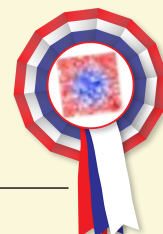

Hear real stories from early to mid-career role holders with our **Careers Tales** case studies

Starting on the hour each day from 11am until 2pm, our Careers Tales, on the **TIAH stand** in the **Futures Marquee**, will feature real people talking us through their career journeys.

Representing Sentry, G's Fresh, Ben Burgess, MorePeople and more, our speakers will be sharing their knowledge of the education, skills and personal qualities needed in modern agriculture, plus their own unusual experiences of life in the sector to bring to life an attractive range of roles across agriculture and horticulture.
